Figure 10

FIG. 10 is a perspective view of the device 100 showing the top surface 76, the bottom surface 78, the front edge 84, the left side 86, the right side 80, and the rear edge 94. The device 100 is shown in a perspective view, with lines indicating its three-dimensional shape.

A technical drawing of a mechanical assembly, likely a pump or motor component, shown in a cross-sectional view. The drawing is oriented horizontally. It features a central shaft with a pulley or gear mounted on it. The shaft is supported by bearings housed within a larger frame. The frame has a complex internal structure with various chambers and passages. Section lines are drawn across the drawing to indicate where cross-sections are taken: A-A is a vertical line on the left side, B-B is a vertical line on the right side, and C-C is a horizontal line at the top. The drawing is a black and white line drawing with no shading.
